

REACH Information from Elektrisola

Dear customer,

REACH (Registration, Evaluation and Authorization of Chemicals) in Europe asks for registration of chemical substances in Europe after December 1, 2008. Enamelled wire is not required to be listed, as it is considered as an "article", not as a chemical substance.

ECHA (European Chemicals Agency) has proposed enclosed list of chemicals, which should not be contained in articles of above 0.1 % (w/w) content. Hereby Elektrisola declares that our enamelled wire products fully comply with the regulation of REACH with respect to:

- i. Substances of Very High Concern (SVHC)
219 Substances **as of 08th Jul 2021**
(<https://echa.europa.eu/candidate-list-table>)
- ii. Authorisation List, the list of substances included in Annex XIV of REACH
54 Substances **as of 08th Jul 2021**
(<https://echa.europa.eu/authorisation-list>)
- iii. Restriction List, the list of substances included in Annex XVII of REACH
69 Substances **as of 08th Jul 2021**
(<https://echa.europa.eu/substances-restricted-under-reach>)

as published by ECHA until today.

All suppliers to European Elektrisola factories are in correspondence with REACH, so no problem of supply should occur.

Please contact us should you have any questions, or if we can be of further assistance.
